IDS Workshop,
30 Years of Progress in Radar Altimetry Symposium,
2-7 September 2024, Montpellier, France

DSO is developing its own, in-house software for POD via DORIS.

Problem Statement:

How do we go about testing the software?

Software Testing

Testing is hard ...

- hundreds of thousands of LOC,
- different modules, performing different tasks, in different repositories,
- different kinds of errors: programming, bugs, implementation, models,
- different magnitudes and effects,
-

Thank you

Thank you for your attention!
